Degree Program(s) Assessed	Assessment Methods	Number of Individuals Assessed
M.S. in Health and Human Performance and Ed.D. in Applied Educational Studies	Post Graduation Employment – 75% of all students seeking employment will find employment in a related field within six months of graduation.	12 4

Analysis and Findings

The 2003 OSU Graduate Program Alumni Survey was used to obtain data for this report. In response to the question, “Are you employed full time or part time?” the following results were obtained:

	<u>Masters</u>		<u>Doctorate</u>	
	n	%	n	%
full time	12	100	4	100

Further, in response to the question, “How closely is your current position related to your graduate studies?” the following results were obtained:

	<u>Masters</u>		<u>Doctorate</u>	
	n	%	n	%
not at all related	1	8	1	25
slightly to moderately related	11	92	3	75

Uses of Assessment Results

All faculty in the Health and Human Performance Program have been given a full and complete copy of the assessment report. These data have been used to help faculty evaluate and revise the degree programs in order to serve the graduate students more effectively.
